

DANGER

ASBESTOS
CANCER AND LUNG DISEASE HAZARD
AUTHORIZED PERSONEL ONLY

Conducting construction*, renovation, or demolition activities without a proper inspection is AGAINST THE LAW!!

Failure to file the proper paperwork will delay your project!!

***Note - New constructions which do not tie into or disturb an existing facility do not require an asbestos inspection**

If you discover or suspect asbestos on your property, DO NOT disturb it! Always wait for an asbestos inspection report and act accordingly.

Common Asbestos Containing Materials (ACM):

- Thermal system insulation
- Ceiling and floor tiles
- Transite siding
- Linoleum
- Plaster
- Paint

- **A copy of the inspection report must be sent to the WV Bureau of Public Health (BPH) and the WV Division of Air Quality (DAQ)**
- **Notification form must be sent 10 working days prior to activity**

For more information on asbestos demolition regulations and safety from the EPA, scan the following QR code:

Exposure to asbestos increases your risk of developing asbestosis and cancers such as mesothelioma.

Questions? Contact the DAQ at (304) 926-0475 or the BPH at (304) 558-1289
